

Please add my voice to the thousands you have heard - this is a terrible abuse of corporate power and conglomeration to promote a political agenda.

Can you imagine this company demanding that all their affiliates broadcast "Fahrenheit 9/11" without commercials? As you know, it wouldn't happen.

Conservative or liberal, this kind of abuse of FREE and PUBLIC airwaves needs to be looked at closely - determination needs to be made as to whether this is a fair and balanced use of public airwaves.

Thank you,

Karen Wickersham (NOT a liberal)
